

February 2023

This schedule outlines the requirements as described in the Improving Cancer Outcomes (Diagnosis Reporting) Regulations 2015, Section 6.

The Regulation defines that hospitals are required to register cancer cases to the Victorian Cancer Registry (VCR) within 60 days. The VCR understands that this will be 60 days from date of patient discharge.

If there are no cancer cases for your organisation in a given reporting period, please submit as usual and confirm in upload notes the reporting period for which there is no data. If you are a multi - campus organisation, please specify the campus.

Actual reporting frequency is independent of the reporting schedule. The VCR can receive cancer registrations fortnightly or monthly for hospital extracts, or as required via eform.

Data submission contacts

If a contact for your organisation will no longer be submitting data, please notify the VCR of this and provide details of a replacement data submitter, so that the VCR may assist the new contact in the submission process.

Please email VCR@cancervic.org.au if you have any questions or wish to update us on your submission process.
